Subject:

Rush sequence search for 09/981606

Ms. Chan,

I am requesting a rush sequence search and for interference of the following: 09981606. This case needs prompt attention.

Please forward your approval to STIC

Please provide a search of nucleotides 67-339 of SEQ ID NO: 1, wherein at position 193 and A is substituted for a T.

Please provide a search of nucleotides 700-850 of SEQ ID NO: 1, wherein a mutation is located at nucleotide 845.

Please provide a search of nucleotides 4652-4915 and nucleotides 6494-6927 of SEQ ID NO: 27.

Thank you

Cynthia B. Wilder, Ph. D.

GENERAL INPORMATION:
APPLICANT: CARGILL, Michele et al.
TITLE OF INVENTION: GENERAL INFARCTION, METHODS OF DETECTION AND USES THEREOF;
TITLE OF INVENTION: MYOCARDIAL INFARCTION, METHODS OF DETECTION AND USES THEREOF;
TITLE OF SEPERAL 2003-12-22

CURRENT PILING DATE: 2003-12-22

NUMBER OF SEQ ID NOS: 73997

SOFUTARE: PASESEQ for Windows Version 4.0

LENGTH: 2398
                              SENETIC POLYMORPHISMS ASSOCIATED WITH MYOCARDIAL INFARCTION, METHODS OF DETECTION AND USES THEREOF
                                                                                                                                                                                                                                                                                                                                                                                         0
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     ö
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               347
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               120
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                180
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      120
